

Lockdown: traditional wooden barrel takeout and to-go food

Corona Lockdown from 2. November until at least end November. During that time food & drinks ONLY possible to-go, Mo-Sa 17.30-20.30 and Sundays 12-15 hours.

In addition to bottled smoked beer we will reactivate the old "Gassenschänke" tradition: In the time before mass bottling and supermarkets people went to brewery taps with pitchers to buy beer, which was poured there from wooden barrels. And so it will be now again: Bring your own container and get your smoked beer freshly from the wooden barrel in our brewery tap. But please note: A consumption on sight (e.g. as pint in the street before Schlenkerla) is NOT possible during lockdown.

Food selection for takeout (German only, sorry):
